DEPARTMENT OF MECHATRONICS ENGINEERING

The Convener **Dr.M.Sudhagar** delivering the welcome address to the Chief Guest, Students and faculties. He shares about why this Hands on training and importance of it. Everyday technology boomed that's why we need to update the knowledge. So that this type of program was organized in our esteemed organization. I hope this program to create a new idea and relationship between various college students. Once again I warm welcome to everyone. All the best for students.

The organizing chair committee **Dr.S.Chitra**, Principal, PMC Tech. She delivering the facilitation address as follows, “The function of education is to teach, one to think creatively and to think critically, intelligence plus character that is the goal of true education” Education functions as an instrument which is used to facilitate integration of the younger generation into the logic of the present system and to bring many extra ordinary things to occur innovatively which is beneficial to the human society. This Hands on training on “**Power Electronics drives and control**” platform to present the young minds talents innovatively and effectively. Hard work, sincerity and dedication will lead to success.....
