INSTITUTION AT GLANCE

Er Perumal Manimekalai group of institutions (PMC TECH) was established in the year 1996 by the Founder Chairman Shri Er Perumal and sponsored by Er.Perumal Manimekalai Telugu Minority Educational and charitable Trust. PMC TECH group of Institutions comprise Engineering College, Polytechnic, ITI and Matriculation School located near to the Industrial Hub, Hosur.

ENGINEERING COLLEGE AT A GLANCE

Established in the Academic year 2002-2003, approved & affiliated by AICTE & Anna University respectively and also accredited by NAAC wit B++ Grad, the college inculcating values of education into the young generation attained outstanding results and thereby created name for itself in the region as a leading Institution.

ABOUT THE DEPARTMENT

The Department was established in the year 2006 with an intake of 60 students. The PG course was started in 2012. The Department is approved by AICTE and Accredited by ISO. The department is blessed with well qualified and experienced faculty members to improve and enhance the knowledge of the student community. The department has good computing facilities with latest and updated versions of the software. The Department has Strength of 135 students in UG and 21 Students in M.E computer Science and Engineering our Department have good Research and Development Center. Our Department has produced outstanding results over Years through planned, rigorous and well executed Teaching Methods.

The department conducts periodic workshops, seminars and conferences to help students, research scholars and industries to share a common platform and thereby strengthen the Industry Institution fusion. All our students are members of IEEE and CSI chapters.

OUR VISION

*   To empower the students with high quality of education by providing opportunities for shaping and transforming students into eminent and ethical professionals, researchers, innovators and entrepreneur with leadership skills to serve the society and nation.

MISSION OF THE DEPARTMENT

*   To improve the problem solving skills with innovative thinking.
*   To meet the industry requirements by providing career skills development.
*   Encourage the students to become self-motivated.

CHAIRMAN'S MESSAGE

"Any place that anyone can learn something useful from someone with experience is an educational Institution"

True Education indeed paves the path for the children to learn new things in a correct manner. It heals them, broadens their perspectives and enriches their knowledge to face the globally competitive era. PMC TECH started in 2002 with an objective to provide quality education and excellence in ever changing field of technical education. Technology is moving at a very fast pace. What was breakthrough yesterday is obsolete today. This has made it imperative that future technocrats must be familiar not only with technical skill but also with the technology of tomorrow. The maximum "survival of fittest" is more relevant now than ever before. We believe in value based quality education and faculties Members at PMC TECH are striving hard for it, so that product of PMC TECH is well received by the industry, public and private sector organization and others. I hope young engineers passing from the institute will create difference in Indian and Global scenario.

SECRETARY'S MESSAGE

"The object of education is to prepare the young to educate themselves throughout their lives"

Time has now come to realize your dream to be in the main stream of your professional career and must be a great feeling to be a part of most prestigious one. PMC TECH has a history of more than 10 years. In recent years degree in the technical education like Engineering, has become the foremost academic qualification for all leading Industries, Government and Non-Government sectors. Academicians and Industrialists alike have recognized the value of the degree in the developing challenges of the rapidly changing technical environment. One of the strength of our campus is the diversity of programs and members background and experience. The range of functional, professional and vocational skills and knowledge that participants bring to the program allow the lecturing faculty to test the validity of theoretical concept against of rich background of personal and organizational outlooks. The Campus environment and work culture will encourage individuals from all walks of life and from all special and economic backgrounds. To be Engineers and other technical – based professionals, can all benefit from the experience at this beautiful campus.

TRUSTEE'S MESSAGE

"Education is a progressive discovery of our own ignorance"

At PMC TECH, we value every individual and it is our aim to provide the best possible environment where students can succeed. Our campus has grown from its inception in 2002 to accommodate almost 3000 pupils in first-class teaching facilities which are amidst beautifully kept grounds. We are fortunate to have a talented, highly committed teaching and supporting staff here to ensure the learning environment of our students is the best it can be.

We seek to prepare our young men and women with the very best preparation for life after PMC TECH. Our departing Collegians should be well rounded individuals who are grounded in the Anglican way of faith, hope and love. We seek to instill in our students a passion for learning which brings knowledge and makes them to understand that they need to make a positive contribution to the community where they live and work. The likelihood of achieving this is strengthened by the fact that we offer an academic program that includes in depth, rigorous coaching and which can be tailored to individual needs. We encourage high academic standards and have high expectations of personal discipline and motivation from our students.

"Success Is Not Final, Failure Is Not Fatel: It is the Courage to Continue That Counts"

I am extremely happy to know that that department of B.Tech Information Technology is releasing a first newsletter that shows their talents and activities done in their department last year. Exchange of ideas, disseminating of the knowledge will ensure professional growth and the students will get more benefit on it. I hope this will continue with extra content on forthcoming years. "I wish the faculty and students for success"

PRINCIPAL MESSAGE

"Intelligence plus character – that is the goal of true education"

To educate a student in mind and in morals is the most significant need of the hour, we at PMC TECH provide quality education adhered to discipline that composes every student to realize the self and inspires them to build their career with greater ease in this ever changing competent society. PMC TECH has a long list of achievements in providing quality education while meeting the basic criteria of affordability, accessibility and equality. We are providing a perfect platform for students to think, express and exhibit their talents. So for every aspiring student PMC would be the perfect place to shape their flourishing future.

Apart from the academic curriculum, the students are encouraged to excel in the skills they have like in sports, cultural, Music etc. They get first-hand experience in organizing the mega events the college conducts. We emphasize on the students knowing the subjects apart from the prescribed syllabus and the staffs prepare themselves for that adequately. The students interested to put in hard efforts are protected from any external disturbances and are helped in the process. Nowadays, the parents too are co-operating with us to bring a dynamic change in their wards personality and we expect every parent to help us to help them. A thorough congenial atmosphere to grow as an academic-savvy is provided for the students to utilize for their and parents benefit. Once the students step in, they leave out in prime self-confidence to excel in any endeavors they may face.

HOD MESSAGE

"Believe in yourself and all that you are, know that you are, Know that there is something inside you to achieve your to your greater heights"

The main aim of the department is to impart high quality education and research opportunities in all major fields of the subject. It stresses on the strong understanding of theoretical concepts along with their practical application. It comprise experienced and encouraging faculty who ensure that the students are provided with all the necessary resources and guidance required in their pursuit of knowledge and Expertise. By continuous motivation and support of our principal madam our department received many funds from various organizations to conduct various activities for both students and faculties. Our students are disciplined, talented and positive thinkers. Our dedicated faculties provide an excellent set of courses combined with individual attention to make our students to get high score in University Examinations.

TECH EXPO 2018

A Mega Engineering Exhibition was organized on 22.02.2018 & 23-02-2018 in our college. Regarding this event our department students presented 26 projects and won the department prizes from third year and second year. Noteworthy point was there had been base line of students to witness the exhibition/demonstrations comprising around 10,000 of students from surrounding School and Colleges. The students learnt new things in this Technical Exhibition.

WORKSHOPS / SEMINAR /FDP

A workshop is one of the main techniques used for higher learning. This method relies heavily on the involvement of the learner in formulating or constructing knowledge through hands-on, small-group and individual explorations, using concrete objects or technology. In these workshops persons have to do some task with their hand to produce something.

The purpose of the FDP is to encourage and reward existing faculty for developing their teaching skills in key areas of their expertise. It caters to enhance the education level and encourage the young non-PhD faculty members so that they can contribute in nation building with their technical and professional enhanced knowledge.

We believe that hand-on learning is the best way to learn, the following workshops/seminar/FDP were organized in our department.
