# "PROGRAM" – INDUSTRY ACADEMIA MEET - 2017

**"The need for University graduates to be industry-ready on completion of a degree is a topic which is being examined in increasing depth. There is substantial demand to produce industry-ready graduates who can fulfill the jobs making meaningful contribution to their employers."**

PMCTECH being reputed Institution in the region strongly feels that students must apply best industry practice and skills that <u>employers require of them</u>. Therefore Industry meet are organized for mutually agreeable and beneficial services in the preamble, vision, mission etc., briefed in the attachment. (Please see attachment)

- In this aspect while exploring for most suitable platform in the national/international level, it could identify a highly supportive program <u>VELT (Vocational Education Leadership Training) of Indian & Australian Government joint venture</u>.

- The above program especially seeks participation of surrounding Industries so that hosting Institution can best mould students' inline with the expectations of the Industries concerned.

**Thus PMCTECH organized an "Industry Academia Meet – 2017" inviting participation of surrounding company heads for an <u>in-depth suggestive discussion</u>.**

The meeting was <u>organized on 25/03/2017</u> with surrounding Industrial personnel participation with the main agendas of "PMCTECH - Industry Connect", "OPEN FORUM - Industry Academia Discussion Platform" and "SKILLS – Australia's Vocational Education and Training".

**Elaborate discussion had on the subject/matter for better services to the Industries by the Institutions in line with the requisites suitable in the scenario.**
