ENGINEERING**  
(Accredited by NAAC with B++ Grade)

Our Institute is situated in social economic backward area, Student come for various backward class with multilinguistics. Also life these days is becoming increasing fast paced & complex. The Social Structure is changing rapidly .As more and more families are becoming nuclear with both parents working the growing child/adolescent finds him/her increasingly isolated with rapid proliferation of technology addictions like Social media, gaming & texting are becoming increasingly common. In these conditions many students lack a sense of direction or purpose which makes them prone to distraction and leads them to indulge in undesirable activities. They are detracted from the primary goal of acquiring academic excellence and skills essential for their upcoming professional life.

Transitioning from School to the college environment necessitates adjustment on many counts ex. adjusting to the fast paced semester system the hostel environment, homesickness lack of language proficiency etc.

The student also needs to adopt to the pressures of academic workload. Techniques like time management, Stress management are of significant help in this regard. Many students also face personal/family related problems. Which impact motivation level. All these factors indicate the need and importance of college counselling services. Adequate counselling facility is the answer to help & guide the youth to worthwhile channels and help them to realize the goals of optimum academic personal & career development.

So management to counsel our student as made a MOU with Dr.Ragunath Psychological counsellor a Psychological counsellor

### In his words;

The mind plays an important role in achieving every success. To accomplish anything you have to know exactly what it is you want to do and focus your mind for a clear and well defined goal as below.

- First, you have to think and find out what it is that you really want to accomplish or gain. After deciding on a goal and coming up with a plan, you need to hold in your mind a clear mental image of your goal.
- Not everyone can visualize clear mental images, but regular training of the imagination can do wonders. You may, for example, look at photos of what you want to achieve, and then close your eyes, and try to see it in your imagination. This will enhance your visualization ability.
- What you affirm sinks into the subconscious mind, becomes part of the subconscious mind, and consequently, affects your behavior and actions. If your affirmations are positive, they lead you to success.
- You need to be able to transmit your thoughts to other people, who would aid you with your plans. Often, you have to persuade others to invest in your plans or to help you in other ways.
- You need to be enthusiastic, persuasive, and believe what you are saying; otherwise they won't listen and won't care. To be able to do so, you need some degree of concentration, the ability to visualize, tact and patience, all being mental skills.
- Motivation is another mental and emotional power that you require for achieving success. How can you achieve anything if you are not motivated enough? To increase your motivation and enthusiasm, think often of your goal, about its advantages and benefits, and how it will change your life.
- Your thoughts, which are part of your mind, possess power. If you pour your mental energy into the same thoughts or mental images day after day, they will become stronger and stronger, and would consequently, affect your attitude, expectations, behavior and actions.
- These thoughts and mental images can even be subconsciously perceived by other people, who would then offer you help or opportunities. Not every thought turns into reality. A thought has to be repeated often, and to be saturated with desire, in order to come true.
- Doubts, fears, and worries, tend to destroy what you build with the power of your mind. This means that you need to clear your mind of negative thoughts and doubts. You might not agree that this is possible, but it is, with the proper training.
